

K-LOVE is the ONLY radio station I feel comfortable listening to with my children in the car. The government has removed God from public schools and government offices - at least, provide Christians with an outlet to enjoy God in their cars. K-LOVE has a proven record of converting Christians, and, in a world where marketing sells, God is the only sales pitch on this station. How refreshing!

Please continue to provide my family with access to this safe and educational FM translator radio station, K-LOVE.

Thank you,
Cheri Wade
